POWER & BACKUP SOLUTIONS

Reliable Power and Backup Solutions
for Uninterrupted Operations

STABLE. SCALABLE. SECURE.

ABOUT US

Who We Are

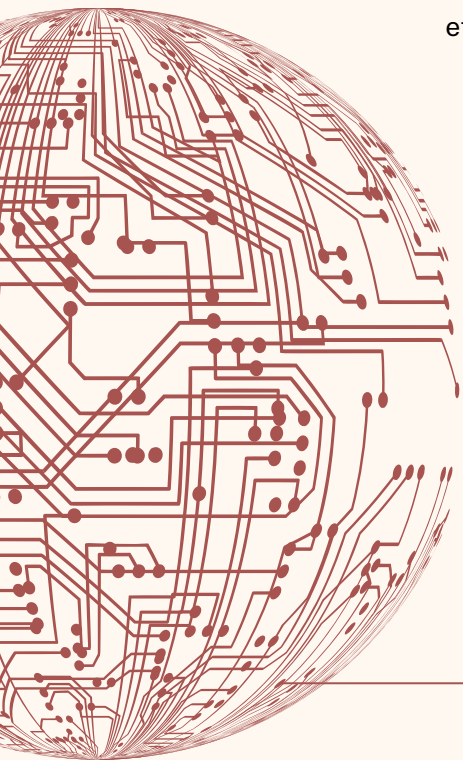

Prasambi Engicon provides advanced IT solutions, including servers, networking, storage, security, power backup, biometric surveillance, and custom desktops. We ensure secure, scalable, and high-performance technology for seamless operations and future-ready businesses.

Our Vision

To be a trusted leader in IT infrastructure solutions, recognized for our innovation, reliability, and commitment to powering businesses with seamless technology. We aim to build a future where businesses operate efficiently, securely, and without limitations.

Our Mission

To empower businesses with top-tier IT solutions by delivering reliable servers, networking, security, and computing systems. Through innovation, expertise, and strategic growth, we ensure our clients have the technology they need to thrive in a rapidly evolving digital world.

OUR PROCESS

Assessment

Analyze power protection requirements, potential risks, and load capacity to ensure uninterrupted operations.

Design

Develop a tailored backup strategy using UPS, PDU, and energy storage to meet business continuity needs.

Installation

Deploy and configure UPS, PDUs, and backup systems, ensuring seamless integration with existing infrastructure.

OUR POWER & BACKUP SOLUTIONS

Uninterruptible Power Supply (UPS) Solutions

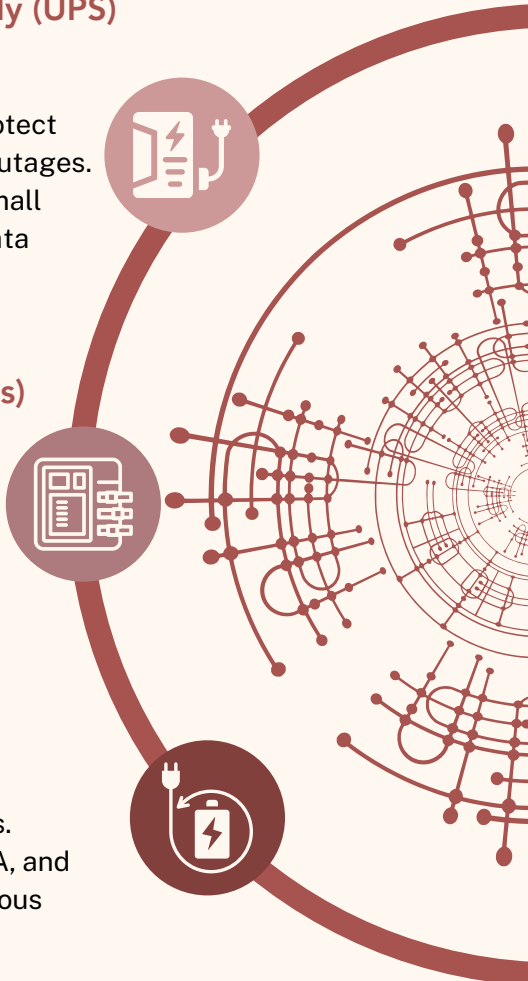

- Reliable UPS systems to provide immediate backup power and protect critical IT infrastructure during outages.
- Scalable solutions tailored for small businesses to enterprise-level data centers.

Power Distribution Units (PDUs)

- Efficient PDUs for distributing power across IT equipment in data centers and server rooms.
- Intelligent PDUs with monitoring capabilities to optimize energy usage.

Battery Backup Systems

- Advanced battery solutions for sustained backup during outages.
- Options include lithium-ion, VRLA, and modular battery systems for various needs.

FEATURES & BENEFITS

01

Uninterruptible Power Supply (UPS)

Provides instant backup power to protect critical systems.

02

Power Distribution Units (PDUs)

Optimizes power management & enhances energy efficiency.

03

Remote Monitoring

Enables real-time oversight of power status and usage.

04

Battery Backup Systems

Bridges power gaps to prevent downtime and data loss.

05

Scalability

Customizable solutions to grow with your business needs.
