ABOUT US

Who We Are

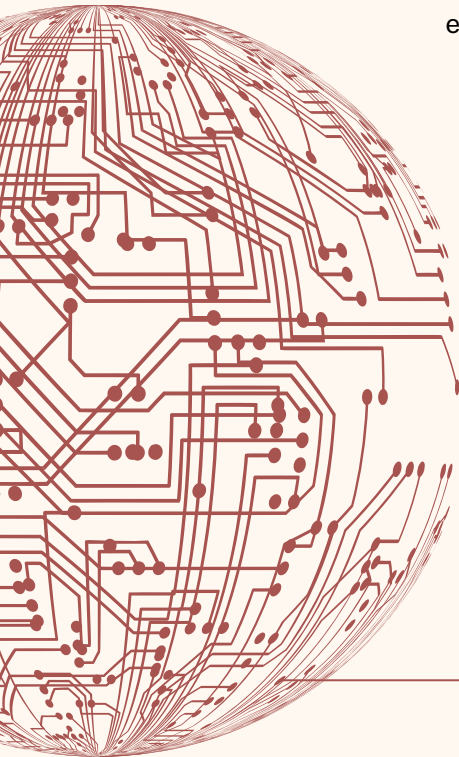

Prasambi Engicon provides advanced IT solutions, including servers, networking, storage, security, power backup, biometric surveillance, and custom desktops. We ensure secure, scalable, and high-performance technology for seamless operations and future-ready businesses.

Our Vision

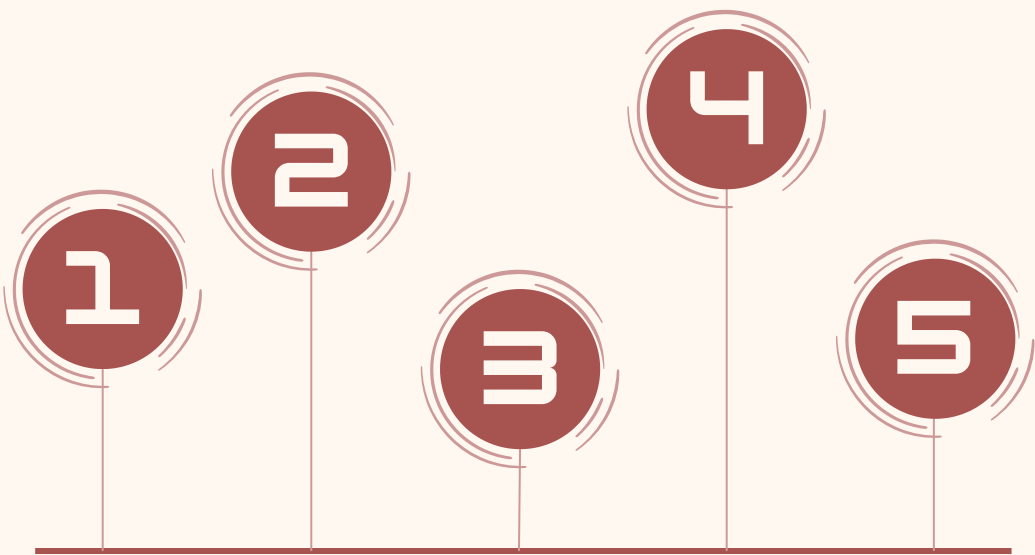

To be a trusted leader in IT infrastructure solutions, recognized for our innovation, reliability, and commitment to powering businesses with seamless technology. We aim to build a future where businesses operate efficiently, securely, and without limitations.

Our Mission

To empower businesses with top-tier IT solutions by delivering reliable servers, networking, security, and computing systems. Through innovation, expertise, and strategic growth, we ensure our clients have the technology they need to thrive in a rapidly evolving digital world.

OUR PROCESS

Assessment

Begin by thoroughly analyzing your business requirements, including the storage needs, security concerns, and future scalability.

Planning

Design a custom server solution by selecting the right server type, specifications & network integration while ensuring reliability through redundancy.

Installation

Proceed with the physical setup of the server hardware, ensuring proper placement, connectivity, and power supply.

Configuration

Install the OS, set up software, configure security, and manage user access while optimizing performance for smooth operation.

Handover

Perform thorough testing to ensure stability, performance, and security. Resolve issues, then provide documentation and training for a smooth handover.
